

Economic Stimulus Offer

Save \$100 on Tools to Increase Your Business & Leadership Effectiveness

Enerpace, Inc., Executive and Personal Coaching is offering a *\$100 discount* on our special “Recession Busting Package”. For only \$350, you’ll receive one of our most popular and powerful leadership tools combined with an HOUR of Executive Coaching to create an action plan based on your learnings – a \$450 value! You may choose one of the following:

1. Emotional Intelligence (EQ) - Key to Leadership Success

Emotional Intelligence is the ability to recognize, understand and manage your emotions and the emotions of others. Many independent academic research studies have shown that 25-50% of all job success, and 85-90% of leadership success, can be attributed to EQ. Unlike IQ, Emotional Intelligence skills can be learned. Those who develop their EQ skills see significant job performance improvement and career advancement. Enerpace utilizes the BarOn EQ-i®, the most widely used and extensively validated Emotional Intelligence Assessment in the world.

2. DiSC® Customized Tools for YOUR Communication & Sales Success

Behavioral research suggests that people who truly understand themselves are most successful at adapting to meet the demands of their environment. The DiSC is a personality behavioral profile using a four dimensional model of normal human behavior.

The “Success Insights®” Assessment Report is used to improve your work productivity, sales effectiveness, interpersonal relationships, communication and teamwork. You’ll learn how to adapt your own communication style for enhanced communication, increased understanding and improved sales

The “Sales Strategy Index®” Assessment Report highlights your strengths, weaknesses and understanding of sales strategy by comparing your responses to common sales challenges with those provided by top sales performers. By spotlighting your most and least effective sales behaviors, an appropriate developmental plan can be crafted to improve performance.
